NOTE: This information covers adding additional devices after you have already enrolled in NetID+.

1. To add devices, go to NetID+ at [http://webauth.arizona.edu/netid-plus/](http://webauth.arizona.edu/netid-plus/). Click Login.

2. Enter your NetID and password, and click Login.

3. On the following screen, select Manage your Account.
4. The NetID+ screen will appear, and you can Login as you normally would. For this tutorial, we will use Duo Push with our smartphone.

You will then see the following screen for your second factor of authentication. Select the appropriate phone from the dropdown list. If you wish, click Remember this device for 30 days. Click Login.

5. You will see the following on your computer screen:

6. Click Duo Mobile -- Login request: UA WebAuth on your smartphone.
7. **Duo Mobile** will open. On this screen, you will see information on your Login (e.g., NetID, timestamp, IP address). Click **Approve** on your smartphone.

8. The following will appear on your computer screen, indicating that you have logged in successfully with NetID+

9. Back on the **Account Management** page, click **Add a Device**.

10. You will redirect to the area where you can add a device as you did in earlier tutorials.
